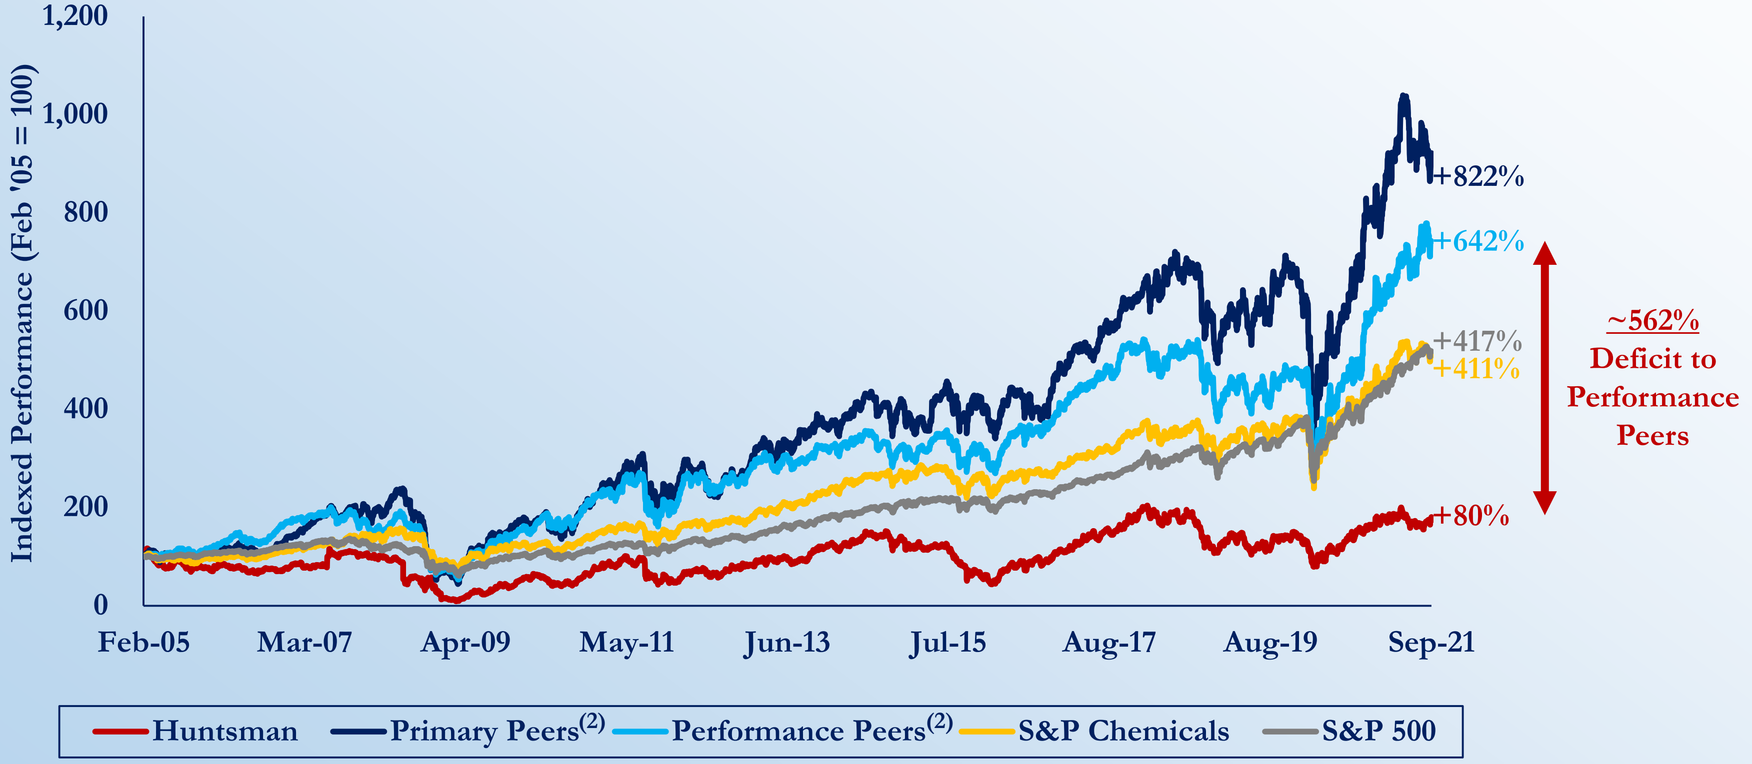
2. Share Price Underperformance

The Company Has a Long Track Record of Share Price Underperformance

From February 2005, when CEO Peter Huntsman took the Company public, through Starboard's Schedule 13D filing in September 2021, the Company has significantly underperformed its peers, and both the chemicals and broader market indices.

Share Price Performance Under the Tenure of Huntsman's Current CEO(1)



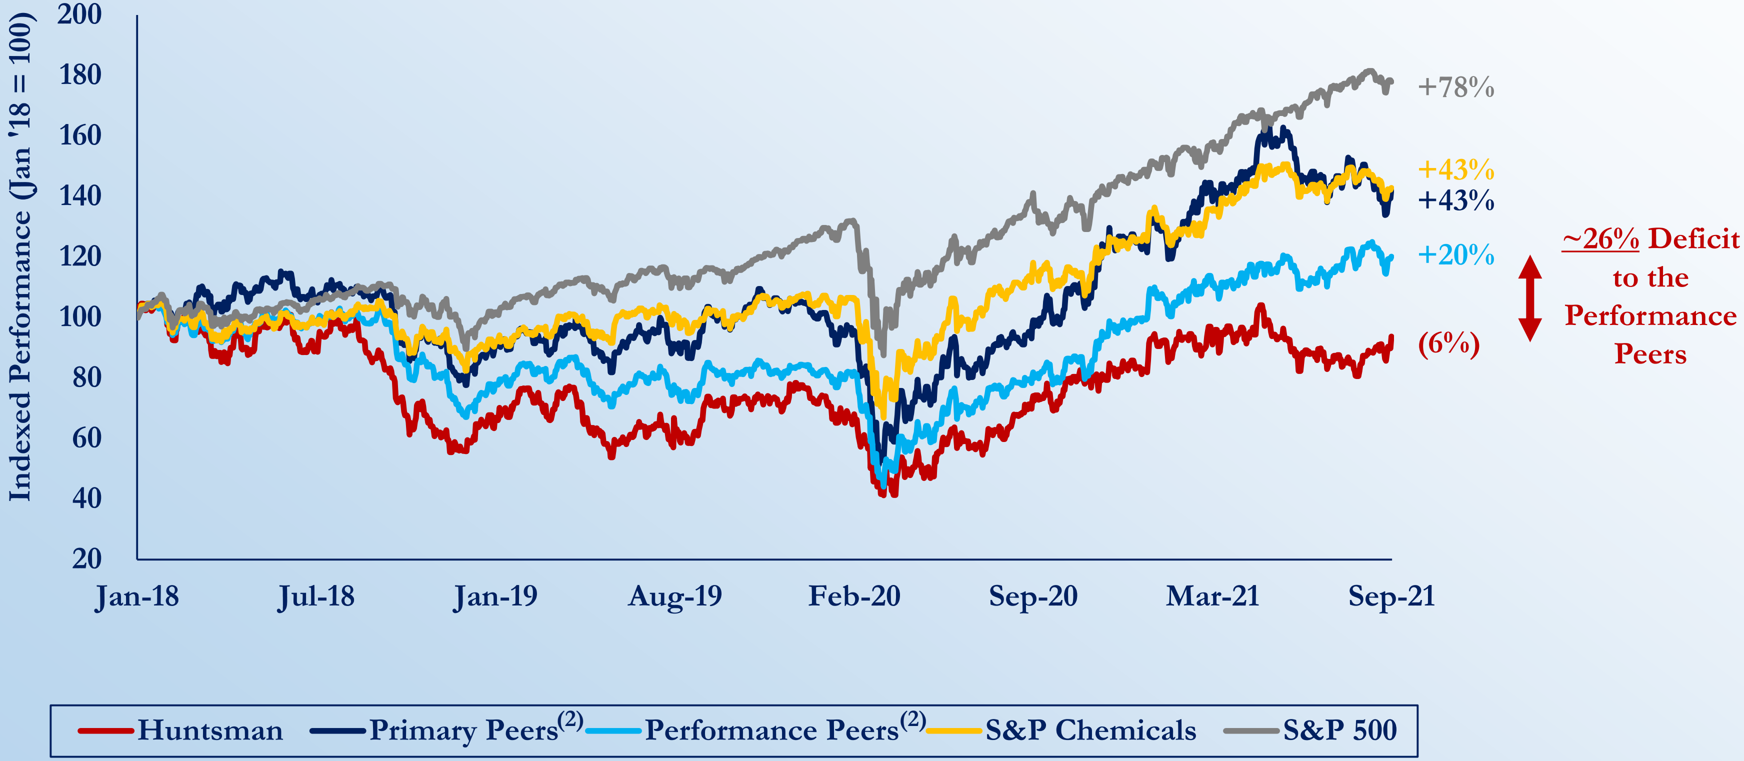
Huntsman's long-term shareholders have suffered significant share price underperformance.

Source: CapitalIQ. (1) Returns are adjusted for dividends and measured from February 11, 2005 through September 27, 2021, the last full trading day prior to Starboard's Schedule 13D filing. (2) See Glossary in Supplemental Information section for definition. Excludes companies within the Primary Peers and Performance Peers that were not publicly traded for the full measurement period.

Since 2018, the Company's Share Price Has Continued to Underperform

Since January 2018, the Company's share price has not only continued to underperform its Performance Peers and other relevant indices, but in fact, generated negative shareholder returns until Starboard's Schedule 13D filing date in September 2021.

Share Price Performance Since 2018 Through Starboard's Schedule 13D Filing(1)



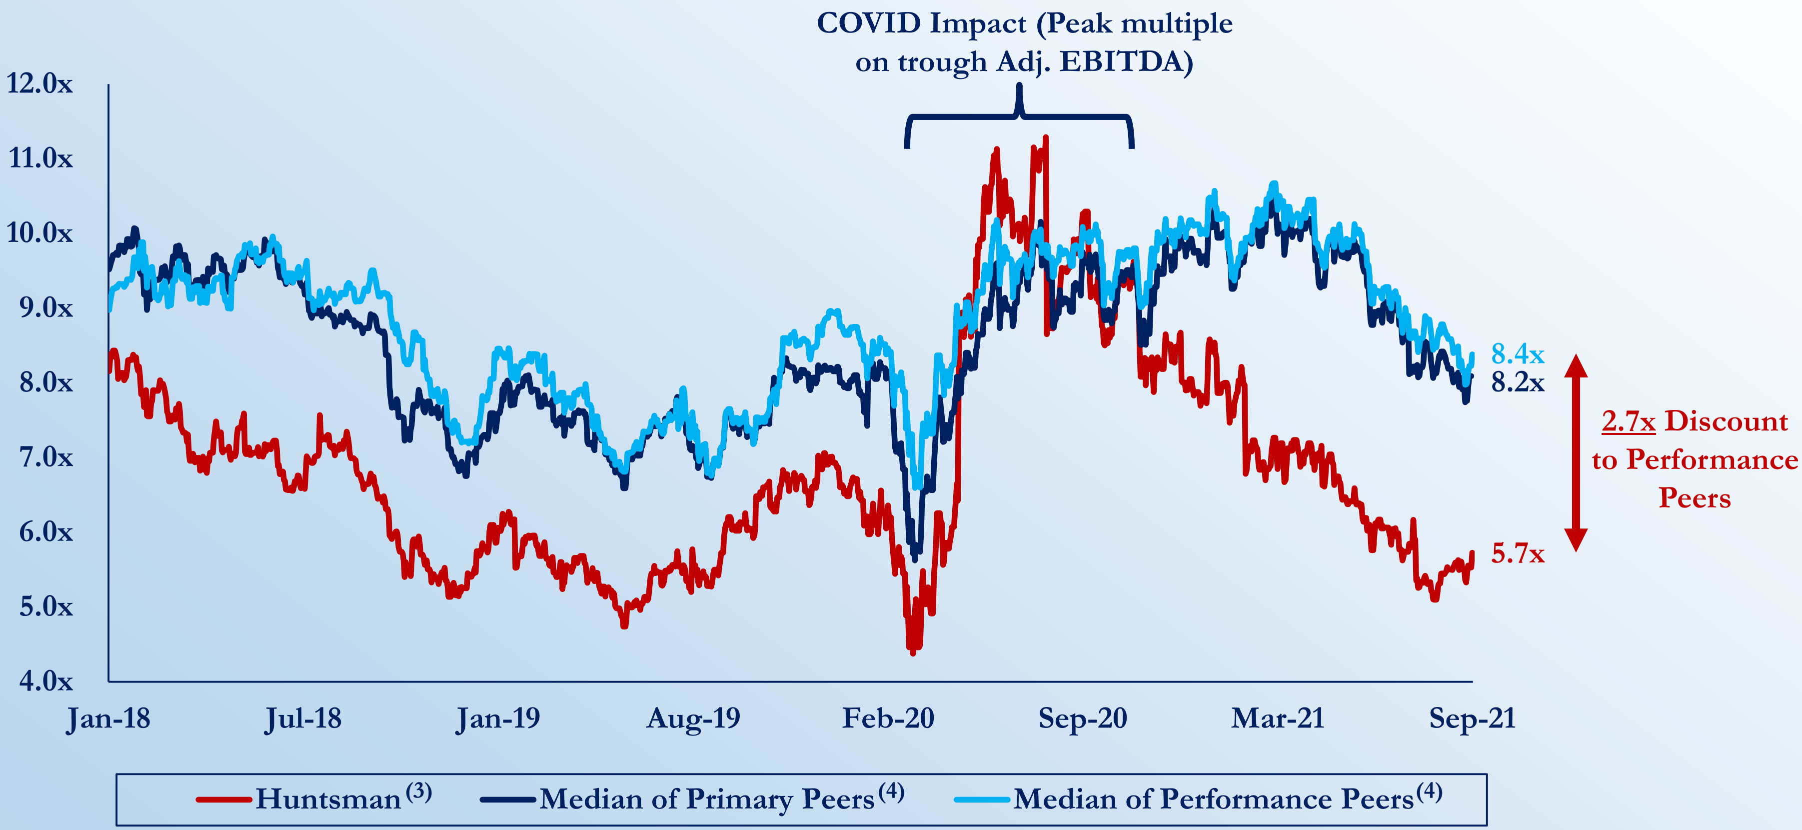
Share price performance since the Company's change in Board leadership continues to be lackluster.

Source: CapitalIQ. (1) Returns are adjusted for dividends and measured from January 1, 2018, the day Peter Huntsman assumed the role of Chairman, through September 27, 2021, the last full trading day prior to Starboard's Schedule 13D filing. (2) See Glossary in Supplemental Information section for definition. Excludes companies that were not publicly-traded for the full measurement period.

The Company Has Also Failed to Convince Investors That It Deserves a Higher Valuation Multiple

With few exceptions, since 2018, Huntsman has been valued at a ~2.0x discount to its peers, with the gap widening significantly post-pandemic in 2021.

Enterprise Value / NTM Adjusted EBITDA – Huntsman vs. Peers(1)(2)



Huntsman continues to be perceived by investors as a lower-quality business relative to its peers.

Source: CapitalIQ, Public company filings. (1) Enterprise value defined as Market Cap plus Total Debt plus Minority Interest less Total Cash. (2) Measured from January 1, 2018 through September 27, 2021, the last full trading day prior to Starboard's Schedule 13D filing. (3) After October 11, 2019, consensus Adjusted EBITDA estimates removed contributions from the Company's Chemical Intermediates business to mirror the Company's reporting of Chemical Intermediates in discontinued operations. In addition, between January 9, 2020, when the sale of Chemical Intermediates was completed, and April 30, 2020, the last trading day before Q1 2020 earnings were reported, the cash balance used to calculate enterprise value did not reflect cash received from completion of the sale. As such, we adjust enterprise value between October 1, 2019, and April 30, 2020, to assume $1.6 billion of net proceeds from the sale of Chemical Intermediates had already been received in order to place enterprise value and consensus Adjusted EBITDA on an apples-to-apples basis. (4) See Glossary in Supplemental Information section for definition.
