Wall Street Analysts Also Do Not Seem to Believe That Huntsman Will Deliver on Its Latest Investor Day Targets

We believe Wall Street consensus estimates suggest a high degree of skepticism regarding the Company's 2021 Investor Day targets as estimated Adjusted EBITDA margins continue to be below the low-end of the Company's targeted range.

> "For some cynics in Chemicals who have more grey hairs than ourselves, they've sat through previous HUN investor days that also felt compelling but ultimately didn't translate into results. **There are a number of (fair) reasons for management to believe that "now is different" (upgraded portfolio, much cleaner balance sheet), but that is the historical challenge the stock is facing: Convincing the incremental buyer that this time is different.** We think the setup into 2022-23 could be interesting if we get a few more good results on the board, but **execution will be the ultimate determinant.**"

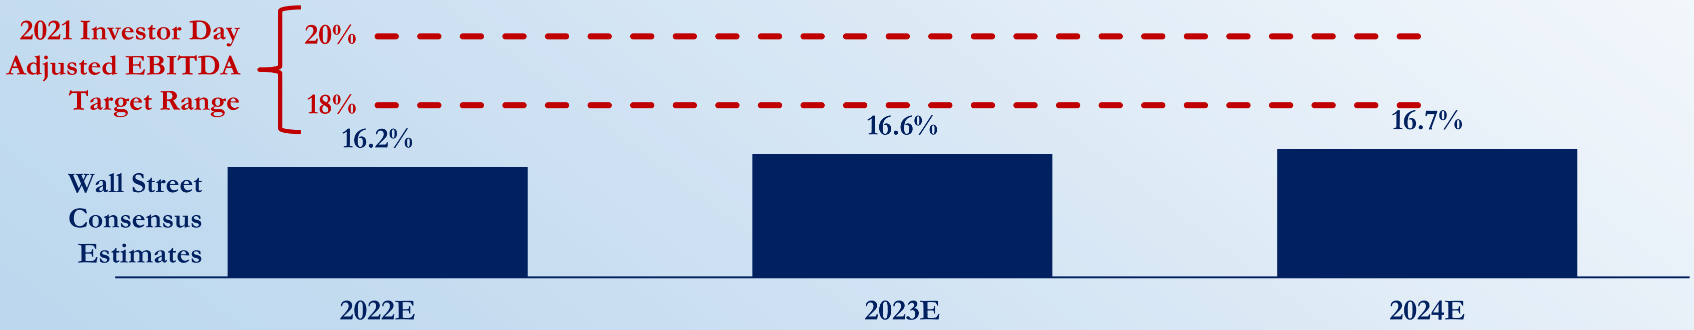
Huntsman 2021 Investor Day Adjusted EBITDA Margin Target versus Consensus Estimates(1)



Wall Street consensus estimates for Adjusted EBITDA margins are BELOW the Company's targeted range

There seems to be significant skepticism among Wall Street analysts that Huntsman will achieve its targets.

Why Should Shareholders Believe the Company's Promises Will Finally Be Fulfilled?

The Company has already fooled shareholders three times since 2014 – why will this time be different?

Investor Day	Commitment	Achieved?	
2014 Investor Day	Achieve $2.0 billion of Adjusted EBITDA over the next 2 – 3 years	✗	Fooled Shareholders <u>ONCE</u>…
2016 Investor Day	Achieve $1.3 billion of Adjusted EBITDA in the core business by 2017	✗	Fooled Shareholders <u>TWICE</u>…
2018 Investor Day	Achieve 10% Adjusted EBITDA CAGR through 2020 and improve share price to ~$60 per share by 2020(1)	✗	Fooled Shareholders <u>THREE TIMES</u>…

The definition of insanity is doing the same thing over and over again and expecting different results!

Without change and significantly greater oversight, shareholders will end up incredibly disappointed again.

Source: Public company filings, presentations, and transcripts. (1) The Company's closing share price on the day prior to the 2018 Investor Day was $32.02. The Company committed to improving share price by at least $27 per share by 2020, which implied a 2020 target share price of approximately $60 per share by December 31, 2020.

5. Poor Governance Practices

The Board Has Numerous Pervasive and Troubling Interconnects That Have Been Consistently Overlooked By ALL Members of the Board

We believe both the Board and the Nominating and Corporate Governance Committee ("Nom & Gov" or the "Governance Committee") have proved unwilling or incapable of addressing seemingly obvious interconnects.

Nominating and Corporate Governance Committee

Dr. Beckerle
Since 2011

Ms. Egan
Since 2020

Mr. Archibald
(2005 – 2022)

Sir Margetts
(2010 – 2022)

Mr. Burns
(2010 – 2022)

NOT INDEPENDENT

Other Board Members

Mr. Reaud
(2005 – 2022)

Mr. Ferrari
Since 2018

Ms. Dulá
Since 2020

Ms. Tighe
Since 2019

Ms. McGovern
Since 2021

Governance Failures

- Complicit in apparent and problematic interlocks
- Repeatedly failed to refresh long-tenured and interconnected directors
- Repeatedly waived the Board's mandatory retirement policy for interconnected directors
- Added directors lacking board experience and chemicals expertise to a Board that already lacked industry experience
- Committee is not composed of truly independent members and has approved sham independence

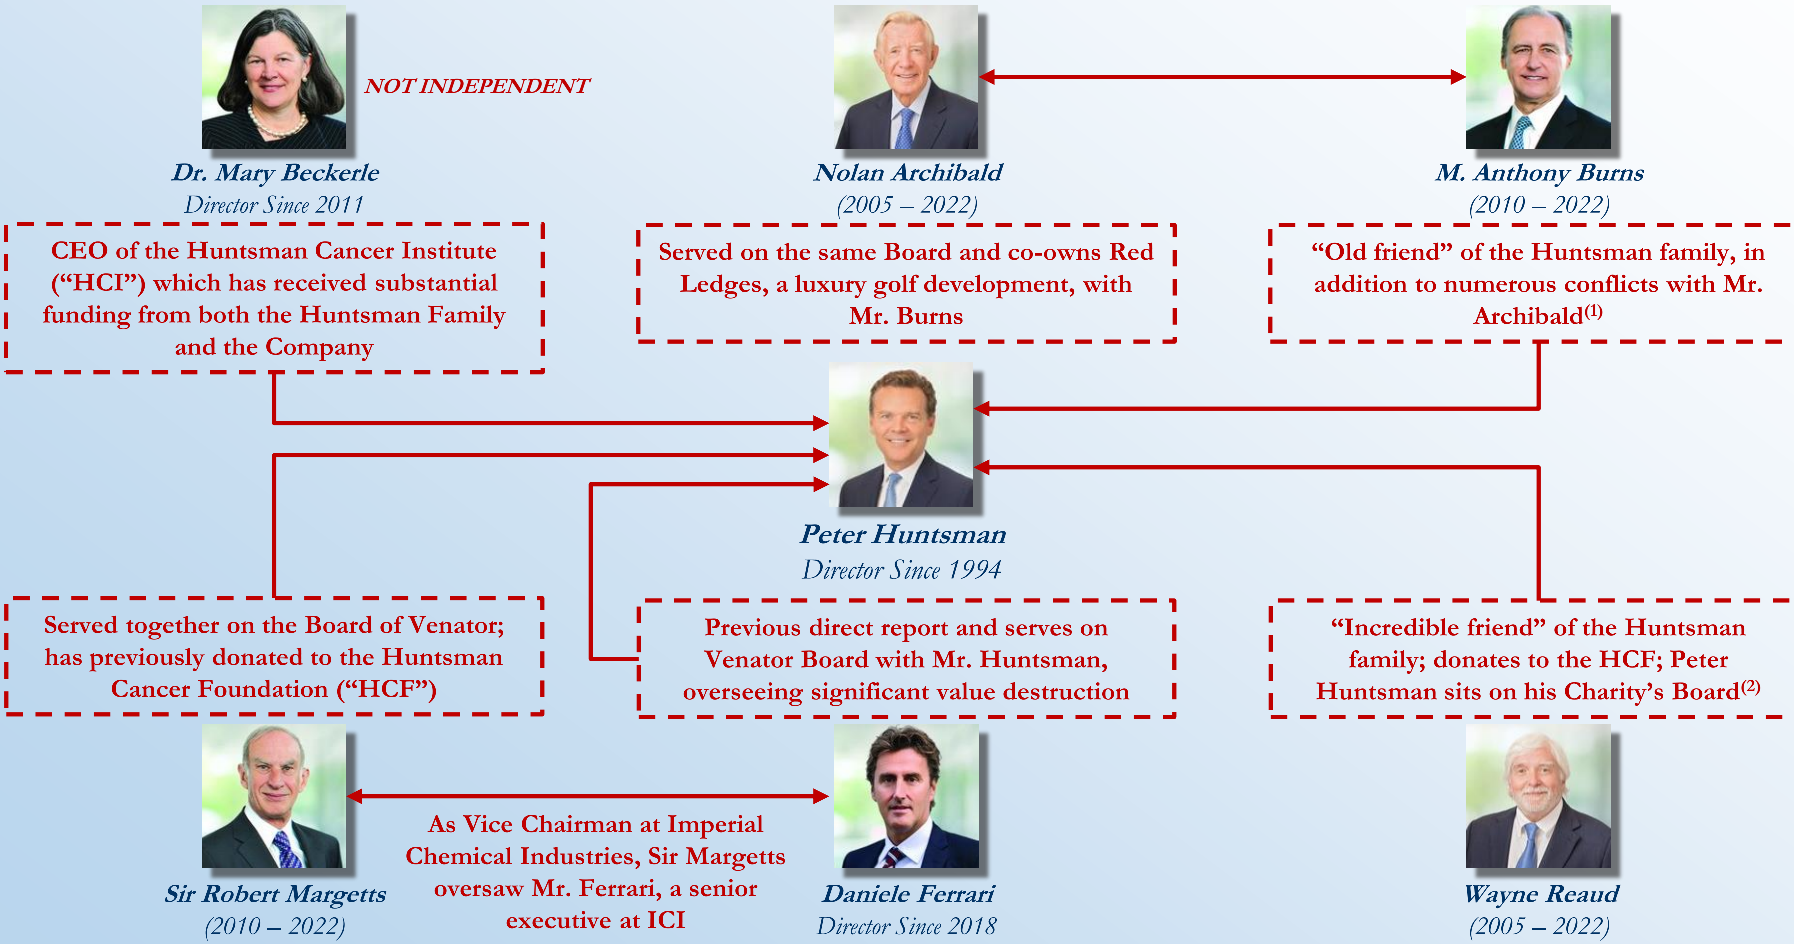
Nominees Starboard Is Seeking to Replace at the Company's 2022 Annual Meeting

Over the years, the Board has consistently failed to address numerous potential conflicts of interest.

Source: Public company filings.

Prior to Starboard's Involvement, the Board Had Numerous Interconnects That ALL Members Had Overlooked For Years

Huntsman had an incredibly entrenched Board with numerous professional, financial, and personal interconnects between both its members and/or the Huntsman family.



For years, ALL directors had overlooked numerous concerning conflicts among Board members.

In Particular, Dr. Mary Beckerle Has Deep Financial Ties to the Huntsman Family, Which We Believe Invalidates Her Independence

Dr. Mary Beckerle is the Chief Executive Officer of the Huntsman Cancer Institute ("HCI") at the University of Utah. HCI was founded by the Huntsman family and continues to receive substantial funding from the Huntsman Cancer Foundation ("HCF"), of which Peter Huntsman is Chairman and CEO.

HUNTSMAN CANCER FOUNDATION

UNIVERSITY OF UTAH HUNTSMAN CANCER INSTITUTE

HCF is the fundraising arm of HCI, and its donations constitute a meaningful portion of HCI's operating budget

Chairman & CEO

CEO since 2006

Peter Huntsman

Duty to provide oversight as a Director

Dr. Mary Beckerle

Chairman & CEO

Director since 2011

HUNTSMAN

We believe Peter Huntsman is directly responsible for allocating funding to Dr. Beckerle's organization.

The Huntsman Family Has Donated Almost $750 Million to HCI, Which Employs and Pays Dr. Beckerle >$1 Million Per Year

Dr. Beckerle is a beneficiary of substantial donations from the Huntsman family. Despite this fact, the Board shockingly claims Dr. Beckerle is an "independent" director.

Almost $750 million in donations

~$1.05 million in annual compensation(1)

Peter Huntsman and the Huntsman Family

UNIVERSITY OF UTAH HUNTSMAN CANCER INSTITUTE

HUNTSMAN CANCER FOUNDATION

Dr. Mary Beckerle

The Huntsman Family Has Donated Almost $750 million to the HCI

Mr. Huntsman and his wife, Karen, founded Huntsman Cancer Institute (HCI) in 1995 to accelerate the work of curing cancer through human genetics. Mr. Huntsman's early contributions to HCI amounted to $225 million. HCI is now one of America's major cancer centers dedicated to finding a cure. The combined facility features leading-edge research laboratories and a state-of-the-art hospital treating cancer patients. Today, approximately $1.5 billion has been directed to the building of HCI, almost half of which was donated by the Huntsman family.

Dr. Beckerle receives >$1 million in annual compensation from Huntsman Family-funded organizations.

Source: Huntsman Cancer Institute, Huntsman Cancer Foundation, Utah Office of the State Auditor website. (1) $100k stipend from Huntsman Cancer Foundation and ~$950k in compensation from the University of Utah / Huntsman Cancer Institute.

In Addition to the Huntsman Family, Other Directors and Company Executives Have Made Sizeable Donations to HCI

Board members and senior executives have also donated significant funds to HCI / HCF, which we believe creates further financial conflicts of interest with Dr. Beckerle.

HUNTSMAN CANCER FOUNDATION
