

C The Company Failed to Achieve Its Cumulative Free Cash Flow Target

The Company failed to fulfill its commitment to generate \$1.7 billion of cumulative free cash flow (“FCF”) between 2018 and 2020.

2018 – 2020 Cumulative Free Cash Flow⁽¹⁾

(\$ in millions)

The Company failed to achieve its \$1.7 billion cumulative free cash flow target, demonstrating yet another failed commitment to shareholders.

D The Company Failed to Improve Its Valuation Multiple

The Company's average valuation multiple has remained largely stagnant since its 2018 Investor Day.

Huntsman Adjusted EBITDA Valuation Multiple vs. Peers⁽¹⁾⁽²⁾

The Company's valuation multiple versus peers has also FAILED to improve

Normalizing for COVID, Huntsman's valuation multiple has largely remained stagnant since 2018.

See Section 4 for additional detail. Source: CapitalIQ, Public company filings. (1) Enterprise value defined as Market Cap plus Total Debt plus Minority Interest less Total Cash. (2) Measured from May 23, 2018, through September 27, 2021, the date of Starboard's Schedule 13D filing. (3) After October 11, 2019, consensus Adjusted EBITDA estimates removed contributions from the Company's Chemical Intermediates business to mirror the Company's reporting of Chemical Intermediates in discontinued operations. In addition, between January 9, 2020, when the sale of Chemical Intermediates was completed, and April 30, 2020, the last trading day before Q1 2020 earnings were reported, the cash balance used to calculate enterprise value did not reflect cash received from completion of the sale. As such, we adjust enterprise value between October 1, 2019 and April 30, 2020 to assume \$1.6 billion of net proceeds from the sale of Chemical Intermediates had already been received in order to place enterprise value and consensus Adjusted EBITDA on an apples-to-apples basis. (4) See Glossary in Supplemental Information section for definition.

Not Surprisingly, Huntsman Failed to Improve Its Share Price to ~\$60 per Share⁽¹⁾

Between the 2018 Investor Day and December 31, 2020, the Company's share price not only failed to achieve management's ~\$60 per share price target, but actually declined by 21%.⁽¹⁾⁽²⁾

Huntsman Historical Share Price From 2018 Investor Day Through Starboard's Schedule 13D Filing⁽²⁾

The Company's share price declined significantly in the years following the 2018 Investor Day.

See Section 4 for additional detail. Source: CapitalIQ, Public company filings. (1) The Company's closing share price on the day prior to the 2018 Investor Day was \$32.02. The Company committed to improving share price by at least \$27 per share by 2020, which implied a 2020 target share price of approximately \$60 per share by December 31, 2020. (2) Stock price shown from May 22, 2018, the day before the Company's 2018 Investor Day through September 27, 2021, the last trading day before Starboard's Schedule 13D filing.

We Believe Huntsman's Track Record of Missed Promises Has Caused the Company's Stock Price Underperformance

Prior to hosting its 2021 Investor Day, the Company had presented Adjusted EBITDA targets to shareholders at three consecutive investor days (2014, 2016, and 2018), and failed to deliver on all three targets.

The Company failed to deliver on Adjusted EBITDA commitments from three consecutive investor days.

See Section 4 for additional detail. Source: Public company filings, transcripts, and presentations. (1) Huntsman sold its European differentiated surfactants business to Innospec on December 30, 2016. The business contributed \$28 million of EBITDA in 2016 per the Company's Q4 2017 8-K filing, which is calculated as the difference between Adjusted EBITDA and pro forma Adjusted EBITDA as disclosed on page 6 of the filing. As a result, because the Company \$1,300 million Adjusted EBITDA target had been set before the divestiture of the European differentiated surfactants business, we reduce the target by \$28 million. (2) 2020 target calculated by taking 2017 Adjusted EBITDA pro forma for the sale of Chemical Intermediates (i.e. \$1,040 million) then adjusting for the impact of one-time events as disclosed on pg. 18 of the Company's 2018 Investor Day presentation, which results in pro forma 2017 Adjusted EBITDA of \$965 million. We then apply a 10% growth rate over three years, consistent with management targets in the Company's 2018 Investor Day presentation.
