

Following Starboard's Involvement, the Board Rushed Through a Refreshment Process That Failed to Improve Accountability

We believe the decision to pursue a rushed refreshment process rather than engage constructively on legitimate shareholder concerns demonstrates the Board remains incredibly entrenched and further change is required.

Governance Failures

Rushed through a refreshment process in response to legitimate shareholder concerns

Simultaneously replaced all but one committee chair and left another committee chair empty

Left directors on the Board with shocking conflicts and poor governance track records

Selected individuals largely lacking public company board experience and possessing murky backgrounds

Declared Dr. Beckerle independent when she is clearly not truly independent

Despite new directors added from 2019 to 2021, the Board's troubling behavior remains unchanged.

After Years of No Meaningful Progress, We Believe the Board Rushed Through a Sham Refreshment Process

After avoiding any real refreshment for years, and only after facing pressure from Starboard, the Board rushed through a sham process that replaced four committee chairs with three directors lacking necessary experience.

Huntsman Board of Directors (2018 – Present)

Rather than constructively engage with shareholders over legitimate concerns, the Board instead chose to hastily remove four committee chairs and appoint three new directors who largely lack public board experience

The Board rushed to replace directors with individuals largely lacking public board experience.

The Board Changed Course Repeatedly, Signaling Its Refreshment Process Was Not “Pre-Planned” or “Thoughtful”

After Starboard’s involvement with the Company in September 2021, the Board hastily replaced its long-tenured and highly-interconnected directors, but declared that such refreshment was part of a pre-planned process.

The Board’s recent refreshment actions seem highly reactionary and spontaneous.

The Ill-Planned and Reactive Refreshment Process Resulted in Significant Turnover Among the Board's Committee Chairs

The Company's abrupt attempt to refresh the Board led to the concurrent retirement of nearly every committee chair. We doubt such sudden leadership turnover was the result of a thoughtful succession plan.

Denotes Board Members Retiring at the 2022 Annual Meeting

We strongly doubt the Company's Board refreshment was the result of a thoughtful pre-planned process.
