

It Seems That the Company is Simply Recycling Promises From 2018 Upon Which It Has Already Failed to Deliver

The Company is now committing to achieve its 2021 Investor Day Adjusted EBITDA targets by 2024, with many of these “new” targets simply being recycled from the 2018 Investor Day that were meant to be achieved by 2020.

Overview of 2018 vs. 2021 Investor Day Adjusted EBITDA Targets

Business Segment	2018 Investor Day Target	2021 Investor Day Target
Polyurethanes	~20% Failed	18% - 20%
Performance Products	High-Teens Failed	20% - 25%
Advanced Materials	>22% Failed	20% - 25%
Textile Effects	Mid-Teens Failed	13% - 15%
Total Company	High-Teens Failed	18% - 20%

With the exception of Performance Products, Adjusted EBITDA margin targets presented at the 2021 Investor Day are substantially the same as those presented in 2018

Many of the 2021 Investor Day targets are simply recycled from failed 2018 Investor Day commitments.

More Recently, the Company Cites 2021 Record Results As Evidence of Strong Momentum...We Are Skeptical

In its recent proxy filings, the Company is citing 2021's record financial results as evidence that management is executing well and the Company's strategy is finally starting to take hold.

Huntsman Claims 2021's Results Are Evidence of Strong Momentum and Improved Execution

Dear Fellow Huntsman Shareholder:

We are writing to you, our fellow shareholders, because a New York-based activist hedge fund, Starboard Value LP – who just recently bought shares in our company – is attempting to replace four members of your Board of Directors who are integral to the continued execution of our successful strategy and delivering a promising future for Huntsman and you, our shareholders.

That promising future is not some vague hope. The price of our shares closed at an all-time high in response to our latest results as reported on our 2021 earnings call on February 15, 2022. Those results were driven by the strategic transformation of our portfolio, the material deleveraging of our balance sheet and our focus on sustainability and securing a sustainable future.

To give you a clear sense of what is at stake: our 2021 results were the best in our history with our current portfolio. The Company delivered the strongest profit and margin performance we have ever achieved while delivering on our commitment to significantly increase free cash flow. Our results demonstrate that Huntsman is already delivering higher margins, a less cyclical business and a more valuable company that is primed to take advantage of megatrends in the chemical industry. We reported:

- Adjusted EBITDA of \$349 million in fourth quarter 2021 up 45% from \$240 million in fourth quarter 2020;
- Free cash flow of \$698 million in fourth quarter 2021 compared to \$88 million in fourth quarter 2020;
- Achievement ahead of schedule of an annualized run rate of \$120 million on our \$240 million cost optimization and synergy program; and
- Repurchase of more than \$200 million shares in the second half of 2021 and a 13% increase to the quarterly dividend.

We have strong reason to believe that the Company is simply the beneficiary of a highly favorable macro environment based on commentary and performance of its Primary Peers

We are highly skeptical that the Company's 2021 performance is the result of strong execution.

Please Do Not Be Fooled, Every Primary Peer Posted Record Results in 2021...a Rising Tide Lifts All Boats

Huntsman Claims 2021's Results Are Evidence of Strong Momentum and Improved Execution

2021 was the best year in Huntsman's history: Huntsman's recent financial results demonstrate that the Company's plan is working. The Company reported the strongest profit and margin performance it has ever achieved with its current portfolio, delivering \$349 million of adjusted EBITDA in the fourth quarter 2021, up 45% year over year, and significant free cash flow of \$698 million, while achieving ahead of schedule an annualized run rate of \$120 million on the Company's \$240 million cost optimization and synergy program.

"Today, I am pleased to report record 2021 adjusted earnings of \$18.12 per share and record free cash flow of \$1.3 billion. To surpass the previous record adjusted earnings per share by 65 percent is a remarkable achievement in any year."

*Lori Ryerkerke, Chairman & CEO – Celanese
January 2022*

"In the face of unprecedented supply disruptions, logistics challenges, labor shortages, COVID variants, and rapid, broad-based inflation, the Eastman team delivered all-time record revenue and adjusted EPS and is positioned to build on this growth in 2022"

*Mark Costa, Chairman & CEO – Eastman
January 2022*

"Our performance in the fourth quarter capped a record year for Dow, which you will see highlighted on Slide 4. In 2021, Team Dow capitalized on the economic recovery, achieving record sales and earnings performance despite pandemic-driven uncertainty and industry-wide weather-related challenges."

*James Fitterling, Chairman & CEO – Dow
January 2022*

Every Primary Peer also had a record year in 2021. Therefore, we believe Huntsman's performance seems to be the result of favorable macro conditions rather than skillful management execution.

In Fact, Huntsman's Performance Versus Peers Has Only Gotten Worse Over Time

The Company's profitability has not meaningfully improved since its IPO and continues to trail both its Performance and Primary Peers.

Historical Adjusted EBITDA Margin – Huntsman vs. Peers⁽¹⁾⁽²⁾

The Adjusted EBITDA margin gap between Huntsman and its peers has continued to widen over time.

Source: Public company filings, presentations, and transcripts. (1) Adjusted EBITDA margins reflect figures as reported in each fiscal year, and is not pro forma for acquisitions and divestitures made in subsequent periods. To the extent Adjusted EBITDA is not a reported metric, we have assumed Adjusted EBITDA equals Adjusted EBIT plus depreciation & amortization. (2) We calculate Adjusted EBITDA to exclude equity in income of unconsolidated affiliates and dividend income from equity investments, and include earnings attributable to non-controlling interests. (3) Excludes \$125 million in 2017 and \$80 million in 2018 from both revenue and EBITDA related to one-time favorable commodity price spikes as disclosed by the Company. (4) See Glossary in Supplemental Information section for definition.

The Company Has a Track Record of Overpromising and Failing to Deliver

Over the years, the Company has made a series of optimistic pronouncements that have not come to fruition.

Management Again Promising a Better Future at the 2021 Investor Day

“We're very excited, and I feel more confident today than I ever have about the future. I know that's something that everybody always says. But why do I feel that, I feel that because we have more control of these issues...there are going to be headwinds here and there. **But what we can control, what we're focused on as a company, and what we're able to do, I think, puts us in a unique opportunity to further transform this business.**”

*Peter Huntsman, Chairman, President & CEO
November 2021*

Summary of Management's Missed Promises Over Many Years *(cont'd on following pages)*

July 2014

“So as we look at that \$2 billion run rate, I don't see any pie in the sky...**So I feel, today, even more confident in that number than I was when -- in March, when we gave that number to our investors.**”

Peter Huntsman, President & CEO

FAILED

September 2014

“We've spent a lot of time with the investment community talking about a bridge, how we get from where we are to that \$2 billion. **I think if you dig into those numbers, you'll see that it's certainly achievable in the next 2 to 3 years.**”

John Heskett, VP – Treasury & Planning

FAILED

Huntsman has a track record of failing to deliver on its commitments.

The Company Has a Track Record of Overpromising and Failing to Deliver (cont'd.)

Over the years, the Company has made a series of optimistic pronouncements that have not come to fruition.

December 2014

“Our LTM is about \$1.4 billion. We have an objective to go to \$2 billion of EBITDA. Many of our businesses are sort of at that level...But really, on track we think near term to get to that \$2 billion of EBITDA.”

Kimo Esplin, CFO

FAILED

February 2015

“I would say that we should quite soundly beat the projections that we gave for the \$2 billion. Again, we still have a great deal of confidence in the \$2 billion number...I think that when we look at the overall composite, we still feel very confident about that.”

Peter Huntsman, President & CEO

FAILED

April 2015

“About a year ago, at our Investor Day, we introduced to the market our near-term EBITDA target of \$2 billion. We believed that we could achieve this number in the next two to three years...we continue to target a \$2 billion run rate in 2017.”

Peter Huntsman, President & CEO

FAILED

February 2016

“If we look at our business without our existing TiO2 division, we would be looking at 2016 as a record year for...EBITDA margins, a materially different and stronger company than we what we have today.”

Peter Huntsman, President & CEO

FAILED

Huntsman has a track record of failing to deliver on its commitments.

The Company Has a Track Record of Overpromising and Failing to Deliver (cont'd.)

Over the years, the Company has made a series of optimistic pronouncements that have not come to fruition.

March 2016

“And if we were a business today that we're separated from our TiO₂, **we would be going into 2016 saying...2016 will be a record EBITDA margin year in the history of this company.**”

Peter Huntsman, President & CEO

FAILED

April 2016

“...as much as this is a business that when you start looking at the core performance, **if you look at Huntsman without TiO₂, we would be going into 2016 here...with some of the highest margins we've ever had in our history and with better than GDP growth.**”

Peter Huntsman, President & CEO

FAILED

May 2018

“So I'll end my remarks on where I started with **wanting this slide to be emblazoned in your mind. Again, as I look at the 4 steps that I think get this company another \$20 to \$30 a share, I think that these are all eminently doable.**”

Peter Huntsman, Chairman, President & CEO

FAILED

July 2018

“**We remain very confident in delivering on the 2020 plans that we shared with you then.** We are committed to the significant value creation upside of more than \$27 per share by the end of 2020.”

Peter Huntsman, Chairman, President & CEO

FAILED

Huntsman has a track record of failing to deliver on its commitments.

The Company Has a Track Record of Overpromising and Failing to Deliver (cont'd.)

Over the years, the Company has made a series of optimistic pronouncements that have not come to fruition.

February 2019

“At the present time with the current forecast we have, our 2019 should be within 5% to 7% of our 2018 EBITDA...”

Peter Huntsman, Chairman, President & CEO

FAILED

April 2019

“When the price gets substantially higher than it is today, we'll make a decision to sell [Venator]....And I think it will gradually see improving fundamentals here, and we will judiciously look at our shares, and we'll sell them at a time that makes sense for us.”

Peter Huntsman, Chairman, President & CEO

FAILED

April 2019

“Putting it all together, if Europe does improve as the Americas returns to plan, our full year EBITDA will be close to the lower end of our initial EBITDA guidance of down 5% to 7% from 2018. However, if the economic conditions within those region stays at current levels, our current year EBITDA maybe down 10% or so...”

Peter Huntsman, Chairman, President & CEO

FAILED

Huntsman has a track record of failing to deliver on its commitments.
