

In Summary, Mr. Ferrari's Involvement With Other Huntsman Directors, as Well as SK Capital, Is Highly Concerning

Mr. Ferrari has spent ~24 years working for Huntsman Directors (Mr. Huntsman and Sir Margetts). More troubling, he recently joined SK Capital after a significant transfer of value from Huntsman to SK Capital.

Timeline of Mr. Ferrari's Work Experience

We believe Mr. Ferrari's professional and financial interconnects are highly concerning.

Source: Public company filings, LinkedIn, news articles. (1) Mr. Ferrari was appointed to the Huntsman Board effective March 7, 2018. Between that time and Starboard's Schedule 13D filing on September 27, 2021, Huntsman's share price, adjusted for dividends, declined 2%. (2) Proceeds to Huntsman calculated as \$100 million received from SK Capital, plus \$20 million assuming SK Capital exercises its option to purchase Huntsman's remaining shares, and \$20 million from Huntsman's selling a 4% stake in Venator in December 2018.

Dr. Beckerle and Mr. Ferrari Aside, ALL Board Members Also Permitted Other Highly Concerning Interlocks

We believe both the Board and Nominating and Governance Committee have failed to address troubling and apparent interlocks between long-tenured directors that hold leadership positions.

Other Interconnections Permitted by the Board

Nolan Archibald
(2005 – 2022)

Ex-Governance Committee Chair

Co-owners of Red Ledges, a luxury golf development in Utah, since 2005

Served on the Board of Stanley Black & Decker together. Mr. Burns approved Mr. Archibald's pay package worth over \$89 million over three years

M. Anthony Burns
(2010 – 2022)

Ex-Audit Committee Chair

Wayne Reaud
(2005 – 2022)

*Ex-Compensation Committee Chair
Ex-Litigation Committee Chair*

Mr. Huntsman serves as one of three directors on the board of Beaumont Foundation of America, a charitable organization founded and chaired by Mr. Reaud

Mr. Reaud is a substantial donor to the Huntsman Cancer Foundation where Mr. Huntsman is the Chairman and CEO

Peter Huntsman
Director Since 1994

We believe the Board ignored obvious interconnects among its most long-tenured directors.

In Summary, Prior to Starboard's Involvement, ALL Directors Repeatedly Failed to Address the Board's Numerous Conflicts

We believe Huntsman had an incredibly entrenched Board with numerous professional, financial, and personal interconnects between both its members and/or the Huntsman family.

For years, ALL directors had overlooked numerous concerning conflicts among its members.

Prior to Starboard's Involvement, the Board Had Also Avoided Any Real Refreshment

Prior to Starboard's involvement in 2021, there was no refreshment of highly-conflicted directors. Rather, the Board merely added new directors while keeping legacy interlocked directors in key positions of power.

NO legacy directors were refreshed between 2018 - 2021; new directors were ALL added by expanding the size of the Board

Prior to Starboard's involvement, the Board apparently made no effort to replace legacy and conflicted directors.

The Board Only Added Directors With No Chemicals Experience, Despite Already Lacking Industry Expertise

We question whether these directors are the best suited to provide accountability to an already entrenched management team and Board.

Non-Management Directors Lack Industry Experience

	Director Since	Chemicals Expertise?
Nolan Archibald	2005	✗
Wayne Reaud	2005	✗
M. Anthony Burns	2010	✗
Sir Robert Margetts	2010	✓
Dr. Mary Beckerle	2011	✗
Daniele Ferrari	2018	✓
Jan Tighe	2019	✗
Sonia Dulá	2020	✗
Cynthia Egan	2020	✗
Jeanne McGovern	2021	✗

We believe Dr. Beckerle is not truly independent

Newly added directors added over the last four years ALL lack relevant industry expertise

We question whether these directors are the best suited to provide accountability.

ALL Members of the Board, Including Those Added In Recent Years, Also Waived Policies Intended to Promote Refreshment

The Company's corporate governance guidelines prohibit directors 75 years old and over from being nominated at the annual meeting. However, for three consecutive years, the Board repeatedly waived this retirement policy for Nolan Archibald and M. Anthony Burns, two long-tenured leaders on the Board.

Director	Current Age	Did the Board Enforce Mandatory Retirement Policy?		
		2019 Annual Meeting	2020 Annual Meeting	2021 Annual Meeting
 Nolan Archibald (Ex-Nom & Gov Chair)	78	X	X	X
 M. Anthony Burns (Ex-Compensation Chair)	79	X	X	X

We question why the Board, including new members added between 2018 – 2021, chose to overlook problematic conflicts and keep highly-interconnected directors on the Board?

By waiving the mandatory retirement age for three consecutive years, we believe ALL members of the Board demonstrated a concerning disregard for governance best practices and a strong preference for the status quo.

Ultimately, We Believe the Refusal to Address Numerous Interlocks Represents a Significant Failure

We believe the Nominating and Corporate Governance Committee has proved unwilling or incapable of addressing seemingly obvious interconnects.

Governance Failures

Complicit in apparent and problematic interlocks

Repeatedly failed to refresh long-tenured directors

Repeatedly waived the Board's mandatory retirement policy for interconnected directors

Added directors lacking board experience and chemicals expertise to a Board that already lacked industry experience

Committee is not composed of truly independent members and has approved sham independence

The Board failed to properly address multiple potential conflicts of interest.
