

as SFI[®], Programme for the Endorsement of Forest Certification (PEFC), the American Tree Farm System[®], and the Forest Stewardship Council[®], provide customers and stakeholders with an objective, third-party determination of whether companies are implementing sustainable forestry practices and making products that come from legal and well-managed sources. We are vocal supporters of the importance of these standards and the use of independent, third-party audits to verify compliance and promote sustainable forestry around the world. At Weyerhaeuser, we choose to certify our timberlands and operations to SFI's standards because they are strong, science-based standards that have effectively pushed forestry in a more sustainable direction. These standards are designed specifically for operations in North America, and we value SFI's approach, especially around logger training and the requirement to invest in and apply research back into our operations. In addition to our forests, we certify all of our manufacturing facilities to the SFI Fiber Sourcing or Certified Sourcing standards, and select sites are certified to the SFI and PEFC Chain of Custody standards.

SOCIAL RESPONSIBILITY

Throughout our long history, social responsibility has been an integral part of how we do business. Our company needs diverse, talented workers to grow, innovate and thrive with us for decades to come. Because we depend on our people, we have a responsibility to create a safe, inclusive work environment where employees are proud to spend their careers. We also need strong communities around us, filled with people who trust and support our work.

OUR PEOPLE BY THE NUMBERS

In 2025, we employed 9,517 employees, including 8,198 in the United States, 1,310 in Canada and 9 in Japan. Of these employees, 2,322 are members of unions covered by multi-year collective-bargaining agreements.

Our employees by business segment were as follows:

SEGMENT	NUMBER OF EMPLOYEES
Timberlands	1,321
Real Estate & ENR	76
Wood Products	7,252
Corporate	868
Total	9,517

SAFETY

Safety is a core value at Weyerhaeuser, which means it guides all our decisions and actions. We are deeply committed to

eliminating serious injuries and fatalities, and to ultimately achieving an injury-free workplace. Our safety results outperform national safety rates for our industry and are driven by:

- caring leaders who build our safety culture;
- engaged employees who look out for each other and
- a risk-based safety system to prevent incidents by:
 - eliminating or reducing our highest risks,
 - using standard, effective tools and
 - building and verifying safety skills.

We are committed to continual improvement and do so through annual prevention-based goals, our internal Safety Council, external benchmarking, implementation of new technology, replicating key learnings and enhancing our safety system and process. Our efforts have resulted in a significant and sustained reduction in the number and severity of recordable injuries over time. This includes a drop in our Recordable Incident Rate, which is the number of Occupational Safety and Health Administration-defined recordable injuries and illnesses that occur per 100 workers working in one year, from 3.85 in 2000 to 2.17 in 2025.

TALENT MANAGEMENT

Attracting, engaging, developing and retaining talented people is a core component of our sustainable business model. To support this, we focus a great deal of energy and resources on recruiting, onboarding, training, coaching, leadership development, career planning, succession planning, pay and benefits and inclusion.

Recruiting and Onboarding

Any business that can attract top talent has a clear advantage, and our goal is to be an employer of choice in our industry and beyond. Each year, we recruit, hire and onboard hundreds of people. To excel in this area, we:

- connect our recruiters with HR and business leaders to monitor workforce plans and proactively source and build talent pipelines;
- build relationships with faculty and students at strategic universities and technical colleges;
- engage with teachers and students at schools in our operating communities;
- partner with third-party workforce development organizations that are focused on building the critical skills we need and
- focus on making our hiring and onboarding experience positive for all candidates and new hires.

Training and Career Planning

Our employees are eager to learn and grow throughout their careers, and our business success depends on building a

motivated and competent workforce. To promote growth and development for our employees we engage in a number of activities, including:

- developing and deploying business-specific technical training for critical roles;
- providing a comprehensive online catalog of training options to grow people and business skills;
- offering easy access to find mentors throughout the company via a mentoring app and
- engaging in career planning discussions with employees and providing tools to develop robust individual development plans.

In 2025, our employees logged more than 40,000 hours of training in our online learning management system, which tracks both virtual and classroom courses delivered.

Leadership Development and Succession

Growing a strong pipeline of highly competent and talented leaders is essential to our long-term success. Each year, we invest in developing our leaders and proactively build ready-now pipelines by:

- delivering in-house front-line, mid-level and executive development programs to hundreds of leaders;
- using defined competencies and development plans to help leaders identify their strengths and improve their gaps;
- conducting rigorous internal talent assessment and succession planning sessions and
- monitoring our people development strategies and workforce plans to proactively address any gaps.

In 2025, more than 300 of our leaders participated in our signature development programs.

Competitive Pay and Benefits

We offer competitive compensation and benefits packages based on eligibility, experience, knowledge and skill level that are designed to attract and retain talented employees and reward superior performance. Some of our benefits include:

- company match for retirement plans;
- comprehensive medical, vision and dental coverage;
- company contributions to health savings accounts;
- wellness and mental health programs;
- paid parental leave;
- paid time off and
- adoption support.

Inclusive Workplace

Inclusion is a core value at Weyerhaeuser because we know our success depends on leveraging many different experiences and points of view to foster innovation, facilitate better decision-

making and ultimately create a stronger company. To ensure our workplace is inclusive, we:

- have “no tolerance” policies regarding discrimination and harassment of employees, suppliers, customers and visitors;
- conduct recurrent reviews of pay equity and address gaps;
- ensure hiring decisions are fair, strictly based on qualifications and free of discrimination of any type;
- offer inclusion-related training to all employees;
- have nine employee-led resource groups that are open to all employees and
- conduct companywide surveys to collect feedback on our inclusive culture so we can continuously improve.

In response to feedback surveys conducted for 2025, 86 percent of all employees agreed their work environment is inclusive. We publish our Employment Information Report (EEO-1) summary data in the sustainability section of our website.

We will continue to closely monitor evolving best practices and will make adjustments to our approach as necessary and appropriate.

COMPANY CULTURE AND ENGAGEMENT

We consider our strong company culture to be a competitive advantage. We are intentional in our efforts to preserve the aspects of our workplace environment that make our company a great place to work, as well as continuously improve and evolve our culture. At the heart of our culture is an unwavering commitment to our core values — safety, integrity, citizenship, sustainability and inclusion. These values are cited often by our employees and are visible throughout our organization. We also embrace five key behaviors that shape our culture and guide how we work together — urgency, accountability, courage, simplicity and innovation. To assess the health of our culture, we conduct regular companywide surveys to collect candid feedback from employees and assess overall engagement. In 2025, we conducted an engagement survey of all employees and our response rate was 82 percent. Our overall engagement favorability score was 88 percent and our average favorability score on questions about the strength of our values was 86 percent. Another indicator we monitor to assess the strength of our company culture is voluntary turnover, which was 10 percent in 2025.

SUPPORTING OUR COMMUNITIES

We operate in rural communities across North America, and we are proud to invest our time and money to help ensure they are thriving places to live and work. In 2025, we provided \$5.9 million in charitable grants, partnerships, matching gifts, research support and in-kind giving to our communities. We also announced the third community we are supporting through

our THRIVE program, which involves a commitment to invest a total of \$5 million across five of our operating communities that are most in need of support. Additionally, our employees volunteered over 24,000 hours of their time to causes they care about. Through our companywide employee giving platform, we provide an easy way for all employees to donate to charities using payroll deduction, and we offer company match programs for both employee donations and volunteerism hours.

PROMOTING ENVIRONMENTAL EDUCATION

Drawing on more than a century of experience in sustainable forestry, we share our story and expertise through tours of our forests and facilities across North America, and we also operate two centers that are open to the public and provide a range of experiential opportunities to learn about forestry, ecology and environmental issues. In Washington, our Mount St. Helens Forest Learning Center is full of exhibits that tell the story of Mount St. Helens and the return of the forest through interactive, hands-on activities and visual displays. In North Carolina, our Cool Springs Environmental Education Center offers a 1,700-acre working forest and outdoor classroom for visitors to explore forestry working in harmony with wildlife habitat, air quality, water quality and recreational activities.

STRONG GOVERNANCE

Our corporate governance practices and policies promote the long-term interests of our shareholders, strengthen the accountability of our board of directors and management and help build public trust in our company. Our governance framework is built on a foundation of written policies and guidelines, which we monitor and modify on a continuous basis to reflect changing best practices and legal requirements, as well as feedback from our shareholders. The following are summaries of some of our important governance practices.

BOARD COMPOSITION AND INDEPENDENCE

Our corporate governance guidelines and the listing requirements of the New York Stock Exchange (NYSE) require that a majority of the board be comprised of independent directors. Our current board composition far exceeds this requirement, as ten of our eleven directors are independent, with the one exception being our chief executive officer. We have appointed nine new directors to our board since 2015. Four of our directors are women, including one woman of color, and two of our three key board committees are chaired by female directors. Our board chair and our chief executive officer are currently separate. Our board chair is an independent director, but to the extent the board chair were not independent, our Corporate Governance Guidelines require that the board appoint a lead independent director to preside over

executive sessions of the independent directors and be responsible for communicating to management regarding any comments or concerns of the directors. We believe these governance structures provide effective monitoring and objective evaluation of the chief executive officer's performance and support the board's independent oversight of the company's performance and governance standards. All of our directors stand for election annually, and we have a majority voting standard in uncontested elections. The board has regular executive sessions of independent directors, and the Audit, Compensation, and Governance and Corporate Responsibility Committees are all composed solely of independent directors in accordance with NYSE and SEC rules.

EXECUTIVE COMPENSATION

Our compensation program is designed to reflect a strong pay-for-performance alignment that will result in superior financial results and create long-term value for shareholders. The Compensation Committee completes a risk assessment of the company's compensation program on an annual basis and also reviews the program and considers feedback from shareholders to ensure that compensation is appropriately linked to performance against company strategy and is aligned with the interests of our shareholders. Some of our leading executive compensation practices include:

- balanced focus on both long-term strategic and financial objectives and shorter-term business objectives, with significant weighting of pay tied to performance-based compensation and a material portion of compensation in the form of equity awards with multi-year vesting;
- "double trigger" accelerated vesting of our long-term incentive equity awards upon a change of control;
- incentive compensation recovery policy that requires the Compensation Committee to pursue recovery of incentive compensation received by executive officers in the event of a restatement of the company's financial statements, subject to narrowly defined exceptions and
- limited executive perquisites such as relocation-related benefits, security services on an as needed basis, financial counseling and annual executive health screenings.

SHARE OWNERSHIP REQUIREMENTS

We have share ownership requirements for our executive officers and directors that require each of them to hold a multiple of his or her base salary (or cash compensation) in shares of Weyerhaeuser stock. The minimum holding requirement is 6x base salary for our chief executive officer, 3x base salary for our senior vice presidents, and 5x annual cash retainer for our non-employee directors. Until the required ownership levels are achieved, executives must retain 75 percent of the net profit

shares acquired when restricted stock units (RSUs) and performance share units (PSUs) vest. Net profit shares are shares remaining after payment of taxes upon vesting of the related equity award. A director may sell shares issuable upon vesting of RSUs only for purposes of paying the taxes due upon vesting but must otherwise hold 100 percent of the net shares granted to him or her until the ownership requirement has been satisfied. Our Compensation Committee monitors and confirms that our directors and officers are in compliance with these requirements. Additionally, we have an anti-hedging and trading policy which prohibits our directors, executive officers and employees who report directly to our executive officers from hedging their ownership of the company's stock. The policy also prohibits directors and executive officers from pledging company stock, engaging in any short sales of company stock or trading company stock on margin.

CODE OF ETHICS

Integrity is a core value at Weyerhaeuser. We have a strong culture of ethics and integrity at every level of our company and have been consistently recognized for our ethical business practices, compliance and high standards since our founding in 1900. Our Code of Ethics applies to all employees and members of our board, and it is an expression of our commitment and shared responsibility to conduct our business affairs ethically with stakeholders, including employees, communities, customers, suppliers, contractors and shareholders. Our employees also participate in regular compliance and ethics training, role-model and promote ethical behavior, and are instructed on how to communicate concerns of unethical behavior.

SHAREHOLDER ENGAGEMENT

We believe that maintaining regular and active dialogue with our shareholders is important for effective corporate governance as well as to our commitment to deliver sustainable, long-term value to our shareholders. We engage with our shareholders on a variety of topics throughout the year to ensure we are addressing questions and concerns, to seek input and to provide perspective on our policies and practices. Shareholder feedback is regularly reviewed and considered by the board and its committees and is reflected in adjustments and enhancements to our policies and practices. We remain committed to investing time with our shareholders to maintain transparency and to better understand their views on key issues.

SHAREHOLDER RIGHTS

Shareholder Proxy Access

Our company Bylaws allow eligible shareholders to nominate candidates to the board of directors who are included in the

company's proxy statement and ballot. This process for inclusion of shareholder nominees in the proxy statement is in addition to previously existing Bylaw provisions that allow shareholders to nominate directors to the board without access to the company's proxy statement.

Shareholders' Right to Call Meetings

Our company Bylaws provide that special meetings of our shareholders may be called by shareholders representing at least 25 percent of the company's outstanding shares if certain notice and other procedural requirements are followed and if the board determines that the matters of business to be brought before the meeting are appropriate for shareholder action under applicable law.

DISCIPLINED RISK MANAGEMENT

Making the right decisions for our business requires understanding risk. We use disciplined processes to manage our risks, which include, among other areas, environmental, safety, social, legal, operational and public-policy risks so our leaders and employees can make sound and informed decisions. Our enterprise risk management group evaluates the likelihood of various risks and determines the potential magnitude of impact to our company. The analysis is conducted under the guidance of our vice president of risk and chief compliance officer, who reports to our senior vice president and general counsel and also reports to our Governance and Corporate Responsibility Committee on matters relating to ethics and compliance and to our full board of directors on matters relating to risk. We also conduct internal audits regularly to ensure compliance with environmental, safety, financial, disclosure and other regulations; voluntary standards; and our own company policies. When noncompliance issues are identified, we develop, implement and track corrective action plans to ensure timely resolution. An independent public accounting firm audits our accounting processes, financial reporting and internal controls on an ongoing basis. We also focus on managing cybersecurity risk through a program that includes information security training, systems testing, testing and audit of our IT controls, and alignment of our program with the National Institute of Standards and Technology Cybersecurity Framework (see further discussion at *Item 1C Cybersecurity*). We also maintain and regularly update other company policies that guide our business, inform our employees and help manage our identified risks, including the following: Anti-Bribery Policy; Anti-Discrimination, Anti-Harassment and Equal Employment Opportunity Policy; Insider Trading Policy; Related Party Transactions Review and Approval Policy; Anti-Hedging and Anti-Pledging Policy; Chemical Management Policy; Code of Ethics; Environmental Policy; Health and Safety Policy; Human Rights Policy; Product
