

WHERE WE'RE HEADED

Our competitive strategies include:

- continuing to leverage our AVO process and technology platform, expertise and scale to identify opportunities to capture a premium to timber value;
- maintaining a flexible, low-cost execution model by continuing to leverage strategic relationships with outside real estate brokers;
- expanding our real estate development activities and investment to capture incremental value on portions of our portfolio uniquely positioned in the path of growth;
- continuing to build out our core Climate Solutions businesses, including forest carbon, carbon capture and sequestration, conservation, renewable energy and mitigation banking;
- building a biocarbon platform and leveraging our scale and sophistication to pursue additional emerging climate solutions opportunities and
- delivering the most value from every acre.

WOOD PRODUCTS

We are one of the largest manufacturers and distributors of wood products in North America.

WHAT WE DO

Our Wood Products segment:

- manufactures high-quality structural lumber, oriented strand board, engineered wood products and other specialty products for the residential, multi-family, industrial, light commercial and repair and remodel markets and
- distributes our products as well as complementary building products that we purchase from other manufacturers.

Wood Products Sources of Revenue

PRODUCTS	HOW THEY'RE USED
Structural lumber	Structural framing for new residential, repair and remodel, treated applications, industrial and commercial structures, as well as other lumber specialty products.
Oriented strand board	Structural sheathing, subflooring and stair tread for residential, multi-family and commercial structures.
Engineered wood products • Solid section • I-joists • Softwood plywood • Medium density fiberboard	Structural elements for residential, multi-family and commercial structures such as floor and roof joists, headers, beams, subflooring and sheathing. Medium density fiberboard products for store fixtures, molding, doors and cabinet components.
Other products	Wood chips and other byproducts.
Complementary building products	Complementary building products such as cedar, decking, siding, insulation and rebar sold in our distribution facilities.

WHERE WE DO IT

We operate manufacturing facilities in the United States and Canada. We distribute through a combination of Weyerhaeuser distribution centers and third-party distributors. Information about the locations, capacities and actual production of our manufacturing facilities is included below.

Summary of Wood Products Capacities and Principal Manufacturing Locations as of December 31, 2025

CAPACITIES IN MILLIONS			
	PRODUCTION CAPACITY	NUMBER OF FACILITIES	FACILITY LOCATIONS
Structural lumber – board feet ⁽¹⁾	5,236	17	Alabama, Arkansas, Louisiana (2), Mississippi (3), Montana, North Carolina (2), Oklahoma, Oregon (2), Washington (2), Alberta (2)
Oriented strand board – square feet (3/8")	3,150	6	Louisiana, Michigan, North Carolina, West Virginia, Alberta, Saskatchewan
Engineered solid section – cubic feet ⁽²⁾	42	6	Alabama, Louisiana, Oregon, West Virginia, British Columbia, Ontario
Softwood plywood – square feet (3/8") ⁽³⁾	610	3	Arkansas, Louisiana, Montana
Medium density fiberboard – square feet (3/4")	265	1	Montana

(1) In September 2025, we sold our Princeton, B.C. lumber mill. Additionally, this excludes our New Bern, N.C. lumber mill, which was indefinitely curtailed in third quarter 2024.

(2) This represents total press capacity. Our engineered solid section facilities also may produce engineered I-joists. In 2025, approximately 24 percent of the total press production was converted into 143 million lineal feet of I-joist.

(3) All of our plywood facilities also produce veneer.

Production capacities listed represent annual production volume under normal operating conditions and producing a normal product mix for each individual facility.

As of December 31, 2025, we also owned or leased 20 distribution centers in the U.S. where our products and complementary building products are sold. In January 2026, we opened an additional distribution center in Billings, Montana.

Five-Year Summary of Wood Products Production

PRODUCTION IN MILLIONS					
	2025	2024	2023	2022	2021
Structural lumber – board feet	4,547	4,404	4,572	4,513	4,815
Oriented strand board – square feet (3/8")	2,988	2,920	2,933	2,961	2,865
Engineered solid section – cubic feet	22.0	22.3	21.9	23.6	24.0
Engineered I-joists – lineal feet	143	147	147	172	190
Softwood plywood – square feet (3/8")	322	314	310	259	263
Medium density fiberboard – square feet (3/4")	118	138	132	161	206

HOW MUCH WE SELL

Revenues of our Wood Products segment come from sales to wood products dealers, do-it-yourself retailers, builders and industrial users. Wood Products net sales were \$5.0 billion in 2025 and \$5.2 billion in 2024.

Five-Year Summary of Net Sales for Wood Products

NET SALES IN MILLIONS OF DOLLARS					
	2025	2024	2023	2022	2021
Structural lumber	\$ 2,037	\$ 1,906	\$ 2,123	\$ 3,374	\$ 3,721
Oriented strand board	762	979	944	1,578	1,840
Engineered solid section	649	708	783	862	679
Engineered I-joists	343	390	447	573	447
Softwood plywood	155	158	166	193	210
Medium density fiberboard	135	159	155	192	186
Other products produced ⁽¹⁾	311	306	335	346	348
Complementary building products	565	615	704	840	790
Total	\$ 4,957	\$ 5,221	\$ 5,657	\$ 7,958	\$ 8,221

(1) Other products produced sales include wood chips, other byproducts and third-party residual log sales from our Canadian Forestlands operations.

Softwood plywood – square feet (3/8")	360	342	342	285	308
Medium density fiberboard – square feet (3/4")	116	135	122	160	205

(1) Sales volumes include sales of internally produced products as well as complementary building products sold primarily through our distribution centers.

Wood Products Prices

In general, the following factors influence sales realizations for wood products:

- Demand for wood products used in residential and multi-family construction and the repair and remodel of existing homes affects prices. Residential and multi-family construction is influenced by factors such as population growth and other demographics, availability of labor and lots, the level of employment, consumer confidence, consumer income, availability of financing and interest rate levels, and the supply and pricing of existing homes on the market. Repair and remodel activity is primarily affected by the size and age of existing housing inventory and access to home equity financing and other credit.
- The supply of commodity building products such as structural lumber, oriented strand board and softwood plywood affects prices. A number of factors can influence supply, including changes in production capacity and utilization rates, weather, imported supply, raw material supply and availability of labor and transportation.

The following graphs reflect product price trends for the past five years.

WHERE WE'RE HEADED

Our competitive strategies include:

- delivering industry-leading controllable manufacturing costs and optimizing capacity through operational excellence and disciplined capital execution;
- aligning closely with fiber supply;
- expanding our distribution footprint and our lumber and engineered wood products capacity;
- developing new and innovative products;
- leveraging our brand and reputation as the preferred provider of quality building products and
- pursuing disciplined, profitable sales growth in target markets.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

Brian K. Chaney, 54, has been senior vice president, Wood Products, since June 2024. Previously, he served as vice president, Engineered Wood Products and Innovation from January 2022 to June 2024, vice president, Engineered Wood Products and Distribution from January 2020 to January 2022 and vice president, Wood Products Sales and Marketing from January 2019 to December 2019. Prior to that, he held various operating and leadership roles in the company's Timberlands and Wood Products businesses.

Kristy T. Harlan, 52, has been senior vice president, general counsel and corporate secretary since January 2017. She leads the company's Law department, with responsibility for global legal, compliance, enterprise risk management, procurement and land title functions. Before joining the company, she was a partner at K&L Gates LLP from January 2007 to November 2016. Previously, she worked as an attorney at Preston Gates & Ellis LLP and Akin Gump Strauss Hauer & Feld LLP.

Paul Hossain, 56, has been senior vice president and chief development officer since January 2025. He previously served as vice president of Natural Resources and Climate Solutions from March 2021 to December 2024, and vice president of Energy & Natural Resources from February 2016 to February 2021. Prior to the merger with Weyerhaeuser, Mr. Hossain served in multiple senior leadership roles with Plum Creek Timber Company, Inc., including vice president of Renewable Energy and Supply Chain, and general manager of Energy and Natural Resources.

Travis A. Keatley, 49, has been senior vice president, Timberlands, since September 2021. Previously, he served as vice president, Western Timberlands, from January 2020 to September 2021 and vice president, Southern Timberlands, from January 2018 to December 2019. He also served as Director of Operations, Southern Timberlands, from November 2015 to January 2018. In addition to serving in a variety of additional operations and leadership positions since joining the company in 1997, he led the successful integration of the Longview Timber acquisition in 2013.

Denise M. Merle, 62, has been senior vice president and chief administration officer since February 2018. Previously, she served as senior vice president, Human Resources and Information Technology, from February 2016 to February 2018 and senior vice president, Human Resources and Investor Relations, from February 2014 to February 2016. She was director, Finance and Human Resources, for the Lumber business from 2013 to 2014. Prior to that, she was director, Compliance & Enterprise Planning, from 2009 to 2013, and director, Internal Audit, from 2004 to 2009. She also held various roles in the company's former paper and packaging businesses, including finance, capital planning and analysis,

and business development. She is a certified public accountant in the state of Washington.

Devin W. Stockfish, 52, has been president and chief executive officer and a member of the company's board of directors since January 2019. Previously, he served as senior vice president, Timberlands, from January 2018 to December 2018 and as vice president, Western Timberlands, from January 2017 to December 2017. He also served as senior vice president, general counsel and corporate secretary from July 2014 to December 2016 and as assistant general counsel from March 2013 to July 2014. Before joining the company in March 2013, he was vice president and associate general counsel at Univar Inc. where he focused on mergers and acquisitions, corporate governance and securities law. Previously, he was an attorney in the law department at Starbucks Corporation and practiced corporate law at K&L Gates LLP. Before he began practicing law, Mr. Stockfish was an engineer with the Boeing Company.

David M. Wold, 44, has been senior vice president and chief financial officer since May 2022. He joined Weyerhaeuser in November 2013 and has held a series of accounting and finance leadership roles with increasing responsibility, including serving as corporate controller from March 2018 to May 2019 and vice president and chief accounting officer from May 2019 to May 2022. Prior to joining the company, he served as vice president, finance of Verdiem Corporation, a privately held technology company, from September 2011 to November 2013. Mr. Wold was previously a senior manager at the accounting firm of KPMG LLP. He is a certified public accountant in the state of Washington.
